Type of Flooring

LVP : Liveproof Rigid Core

Laminate

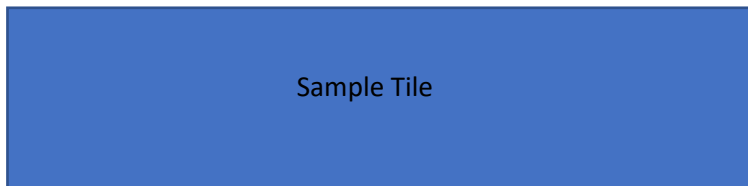

Hardwood

Engineered Hardwood

If LVP or Laminate, what orientation of the tongue and the groove

Tongue

T

Groove

G

What is the dimension of your plank? 32" x 16"

PDF of your layout included? Yes

Possible location to start> Northeast corner

Direction that you are thinking of running your plank? North to south

Questions: How is my starting point and direction? Because of the toe kick, should I start a course back and use a reference line. Or start right at the base of the cabinets and secure the first course with screws.
